ROOT OUT RACISM TO LET OUR FUTURE TAKE ROOT

The term Global Warming was first used by Commonwealth government Wallace Brooker in a 1974 science article. On March 15, 2019, students around the globe walked out of school for the Youth Climate Strike so that, under the spotlight, we can see our way forward, together.

Our experience of the world is conditioned by our culture that troubled her since growing up in the apartheid South. Of all the -isms, the most potent and persistent glue that keeps our blinders in

FRANCES CAIROLI turned to filmmaking after 15 years writing for the CMU. In her solo, she has told riveting stories that have raised the racism in a working-class community in Chicago and the United States. Frances's work has been featured in festivals such as Sundance, SXSW, and the Santa Cruz Peace Chorale for 17 years. and member of the California Faculty Association.
